MEETING REPORT Team Name: 0toHero!
Date of Meeting: March 6 April 2020
 Start Time: 12:00
 End Time: 14:30
Meeting Location: Discord
 Moderator: Panajota Bajaj
Recorder: Sindi Kalo
Other Members Present: Amela Rahimij,Uilliam Hyseni, Xhavit Dushku, Mirel Bengu
Members Absent: No one
Topics Discussed:

1. In this meeting we discussed about the styling(appearence) of our software application.
2. We decided about the name of our desktop application and it is going to be: ABC EDUCATION.
3. We will use php for our backend developing and css/html/javascript/bootstra/json for the frontend. All data will be processed by SQlite database.
4. There will be a database with names of the children, their respective teacher, and all needed information of their parents including: phone numbers of both parents, their emails which we will create for them (example: namesurname@educationabc.al).
5. Our app will only have a login page where will be the phone number and our software app will be directly connected to whatsapp like main communication way since the majority of parents use it.

Tasks Assigned: Uilliam will make a summary of the business, collect information about their staff, number of children and inventory. Mirel will search for information regarding good kindergarten systems, which are their success factors and how we can implement them. Xhavit will check about existing systems, find their weaknesses. Panajota will write our meeting reports. Sindi will support and help Mirel and Xhavit. Amela will supervise and draw a sketch of our duties during the whole process. All together after we discuss every information that we gathered, we will draw sketches and graph of the design of the system and will finally clarify the main users and their usage on the system.

Next meeting: Thursday 12:30-14:00.
